The status of the claims is as follows:

Claims 1-9 have been cancelled; and

Claims 10-20 are herein addressed below.

Claims 10-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 10, lines 15-23, it is not readily understood specifically what the applicant is trying to claim. It appears that the applicant is trying to claim a "markush" grouping yet the applicant has failed to properly set forth the Markush group. (see MPEP).

Applicant's arguments with respect to claims 10-20 have been considered but are moot in view of the new ground(s) of rejection.

The applicant's terminal disclaimer has overcome the double patenting rejection.
